

I wish to file comments opposing the weakening of Indiana's Telephone Privacy Law by the Consumer Bankers Association (CBA). I do not believe the CBA should be allowed to impose the federal "established business relationship" exemption on Indiana consumers. I do not wish to be called by anyone marketing their products. It is annoying to be called by so many telemarketing companies, including banks, credit unions and credit card companies. I have enjoyed the privacy afforded me by being on the Indiana Telephone Privacy List. Thank you.  
Shirley Ross
